Advancing geography
and geographical learning

● 2008 - 2010

Physical Environment

- **2010:** Timothy Lane (University of Durham). Uummanaq Ice Stream System, Greenland: understanding ice stream response to long term climate change
- **2010:** Richard Gravelle (Loughborough University). Dynamic mapping of river channels in a glacial environment, using Acoustic Doppler Current Profiling (ADCP) - Sweden
- **2010:** Anna Muir (University of Glasgow). Amphibians in changing environments: Predicting impacts on distributions, genomic composition and adaptation - UK.
- **2009:** Peter Schuerch (Durham University). Rapid assessment of debris flow erosion and deposition dynamics - Switzerland
- **2009:** Antonia Liversidge (Loughborough University). Determining the origin of abrupt shifts in Holocene lake sediment records from west Greenland.
- **2008:** Martine Janet (Marjan) van de Weg (University of Edinburgh). What controls photosynthesis and respiration in Peruvian tropical montane cloud forests (TMCFs)?
- **2008:** Aidan Parkes (Keele University). A morphological, sedimentological and geophysical investigation of Woore Moraine - UK
- **2008:** Rose Wilkinson (University of Manchester). Quaternary environmental dynamics in Montenegro through multiple glacial-interglacial cycles

Conservation and sustainability

- **2010:** Sarah Owen (University of Leicester). Geological origins of sugar loaf peaks in eastern Brazil and their environmental importance as refugia for Atlantic rain forest preservation
- **2010:** Johan Oldekop (University of Manchester). Social, economic and political structures in indigenous Kichwa communities and their effect on biodiversity in the Ecuadorian Amazon
- **2009:** Luca Marazzi (University College London). Assessment of phytoplankton biodiversity in relation to the ecosystem services in the Okavango Delta, Botswana
- **2009:** Francesca Iordan (King's College London). Small mammal dynamics within a natural river corridor (Fiume Tagliamento, NE Italy)
- **2009:** Emma Stone (University of Bristol). The impact of artificial street lighting on lesser horseshoe bats (*Rhinolophus hipposideros*) implications for conservation management (UK)

Society and economy

- **2010:** Kate Lynch (University of Nottingham). Irish Missionary Nuns in Ireland and the Mission Field.
- **2010:** Leander Kandilige (Oxford University). Transnationalism and the African Diaspora: A case Study of the Ghanaian Diaspora in the UK
- **2009:** Lucrezia Tincani (School of African and Oriental Studies, London). Capturing the poverty-mitigation role of forest resources in rural Burkina Faso
- **2009:** Rene Hohman (King's College London). Inter-organisational cooperation in area-based initiatives: a cross-national study on the New Localism in England and Germany
- **2009:** Matej Blazek (University of Dundee). Changing formation of childhood and gender in a post-socialist housing estate – A case study on Petržalka 1973-2008 (Slovakia).
- **2008:** Helen Pattison (Lancaster University). Oppressed or empowered: The construction of the host gaze within tourism regimes – The Gambia
- **2008:** Rachel Shannon (University of Ulster). A study of the translation of a developing science into public awareness and social organisation: earthquake and tsunami threats in western Sumatra - Indonesia
- **2008:** Magali Moreau (University College London). Land Cover Change and Natural Resource Use in Refugee-Hosting Areas: from humanitarian response to sustainable development - Tanzania
