Now that you have looked at the census data for Tower Hamlets, compare that data with data for Cambridge. Use area shading to compare the different indicators for the two areas. (Make sure that you use the same key for both maps for comparisons).

Some areas to think about:

- Do you notice any patterns of household structure in Cambridge?
- How do the highest and lowest percentages of the different groups in Cambridge compare with the percentages from Tower Hamlets?
- Are you surprised by any of the results?
- What other differences or similarities do you think there are between the communities living in Tower Hamlets and Cambridge?
