7 things every Primary geography subject leader should consider

• @totalgeography

• @EYPCC_GA

• Co- Author, Mastering Primary Geography

• Anthony Barlow, University of Roehampton
7 curriculum considerations about ...

- the NC
- real locations
- limited contexts
- graphicacy
- spatial cognition
- going deep
- YOU!
"develop contextual knowledge of the location of globally significant places – both terrestrial and marine – ...and how these provide a geographical context for understanding the actions of processes" (NC, 2014)
Some pictures have been removed
• "The North Atlantic is warmest and saltiest, the South Atlantic is coldest and densest, and the North Pacific is least dense and least salty."  

• 60% of the world’s fish come from The Pacific Ocean  

• Southern Ocean has 17 types of penguins and 1% of its fish catch!
2: Real locations

Everyday life

This is my London
4: Graphicacy

Reading maps is just one of the skills of graphicacy.

It is also about interpreting visual images such as pictures, graphs, sketches, charts, photographs and diagrams.

*Does it stand alongside oracy, literacy and numeracy?*

- *Some pictures have been removed*
Locating or orienting ourselves

"with respect to the larger global space and to other places"

"...a wide range of up-to-date resources to develop pupils’ locational knowledge and spatial cognition...use live data sources to motivate pupils."

(Ofsted, 2021)
"As well as ...technical, or procedural, knowledge...ensure that pupils can apply that knowledge...imagery provides the contextual setting that strengthens pupils’ schema and deepens their understanding...images ...spark pupils’ curiosity and lead them to ask their own questions or spur their interest to further their knowledge of the human and/or physical processes they see."

(Ofsted, 2021)
7: You

Your context

Your community

Identity

Celebrating similarity

Considering difference
