The Mayor of _____

Councillor _____ (You will have to look up their name.)

Write the Mayor's address here like this:

Dear Mr/Madam Mayor _____, Councillor _____,

I am writing to you about the 2012 O_____ G_____ and how these could affect _____. I am sure that you have already given this some consideration but I would like to draw your attention to how they could change _____ for both the better and the worse by considering political, economic, social and environmental implications.

Politically the 2012 Olympic Games will benefit the country by _____. At a regional and local level g_____ and s_____ will be available for _____ which will help the local people by _____. There will also be w_____ p_____ which will mean that local people can actively take part in planning for the O_____ G_____. However, with so much focus on the O_____ G_____ it could mean that _____. So, overall politically the O_____ G_____ is likely to _____ for The U_____ K_____.

The O_____ G_____ will massively affect our c_____ economically. On the plus side it will bring much w_____ and many j_____. The building industry will have to build lots of s_____ for the a_____ to c_____ in, s_____ for them to practice in and h_____ for them to l_____ in. Builders themselves will need h_____ to live in so _____ housing will be needed. This will be good for the l_____ people. However, there is the worry that the h_____ will be too e_____ for local p_____ and that they will then be bought by p_____ coming from o_____ the area. With all of this building, infrastructure of r_____ and d_____ will need to be i_____ which will be a n_____ to local people. Once the building work is complete

there will be many jobs to do with the _____ such as _____, _____ and _____. Unfortunately though most of these jobs will be t_____ and a lot of them will be only p_____ -t_____. These are problems because _____. Another concern is that with all the extra people needing to t_____ to w_____ and to the O_____ G_____ then there will be a lot of c_____. This will mean that p_____ will arrive l_____ for w_____. This is a problem because _____. So, overall I think that in economic terms the O_____ G_____ will be _____ for us.

Having such an important event in our area will affect all of us here regardless as to whether or not we are directly involved. There will be ev_____ that we can take place in and grown ups will be involved in _____. With so much more money becoming available our h_____ s_____ will be improved so that it can cope with all of the _____. It is good that the O_____ G_____ organisers are focussing on h_____ l_____; this may rub off on l_____ p_____. Nevertheless not all people will become directly involved in the O_____ G_____ because _____. With so many people m_____ into the area there may be the problems of _____. With so many people supporting the athletes there could also be the problem of _____. So, overall the social impact of the O_____ G_____ is _____.

Finally, but very importantly there is the environmental impact of the O_____ G_____. It is good that there are the sustainable aims of _____ and _____. These are good because _____. It is also good that old industrial areas, b_____ s_____ are being d_____ because _____. It must be forgotten that our o_____ s_____ will be b_____ upon. This means that plants and animals will be affected because _____. With so many people out and about and there is then the issue of l_____ which is a problem because _____. So, overall the O_____ G_____ will be _____ for our area environmentally.

In conclusion, I have written about how I think the O_____ G_____ will be both g_____ and b_____ for _____. I have considered the impacts from p_____, e_____, s_____ and e_____ view points. Overall I think that the O_____ G_____ will be _____ for _____ because _____. However, I think that local people would gain more if _____. I hope that you will consider my view points when planning for the forthcoming O_____ G_____.

Yours faithfully,
