

# STAY HOME STORIES

## Information sheet

### What is this all about?

You are being invited to take part in a nationwide project that wants to understand how life has changed during the COVID-19 pandemic. *(You might have heard it talked about as “coronavirus”.)*

People live in all different types of home. Some people live in flats and others in houses. There are people who live on houseboats, in caravans or even castles! Every home is special. You might live in a city or in the country, have a balcony, yard or garden. How people live and use the spaces in their homes is unique. We want to understand how the COVID-19 pandemic might have affected how children and young people understand and use their home spaces. Who can take part?

You are a pupil in school year 3-11

You go to a participating school

## What will happen if I take part?

1

### DRAW A MAP OF HOME

You will work with your teachers to show us how you understand home by drawing a map.

2

### SHARE YOUR MAP

You will work with your teachers to share your maps safely with us. They will become part of an exhibition.

3

### MAKE A DIFFERENCE

Your map will help teachers, policy makers and others understand your views.

## Looking after your interests

You are free to leave the project at anytime if you decide that you no longer want to be part of the project and it will not affect your school work or grades. If you do decide to leave and you do not want us to use some or all of the information you have shared with us, then tell your teacher and they will contact us so we can delete those things for you.

We will keep any personal details private whether you continue to take part in the project or not. We will never share or reveal your personal data with anyone else.

We will always listen to your views and will do our best to act on what you say. If for any reason we cannot do so we will explain why.
