

STAY HOME STORIES

Debrief

Thank you for being a part of our study 😊. People live in all different types of home. Some people live in flats and others in houses. There are people who live on houseboats, in caravans or even castles! Every home is special. You might live in a city or in the country, have a balcony, yard or garden. We want to understand how the COVID-19 pandemic might have affected how you understand and use your home spaces.

TALKING

If you are worried about anything you can talk to your teachers about it.

You can also find support at Childline (<https://www.childline.org.uk>) or through phone call (0800 1111)

REMEMBER

We are not going to tell anyone you were involved in the research. Your information will be anonymised. This means it won't have your name on it.

TELL US

We will always listen to your views and will do our best to act on what you say. If for any reason we cannot do so we will explain why. You can find more information at eduadmin@rgs.org

Data: All information provided by you will be anonymised. This means your maps are stored without your name or any other personal information that could reveal your identity. During the exhibition the maps will be associated with your school and year group not your name. If you have any further questions regarding this experiment or would like to receive follow-up information, please contact Georgina Endfield (endfield@liverpool.ac.uk) or eduadmin@rgs.org
