

# How do we use our oceans?

## Instructions

Think about how the words at the bottom could be grouped together. Use these words to create three different titles (e.g. transport, food etc). Write these titles in the three different circles then, write the number which matches the word in the circle you think it best fits. If a word could go into two categories, write the number where the circles overlap. If the word fits in all three then write the number in the middle.

Challenge: is there anything else you would add? Write those in your Venn Diagram.

1. Sailing
2. Fishing
3. Cruise ships
4. Seaweed farming
5. Salt mining

6. Oil & gas extraction
7. Swimming
8. Cargo ships
9. Research
10. Renewable energy

11. Ferries
12. Canoeing
13. Windsurfing
14. Surfing
15. Snorkelling / Scuba Diving
